

Conversion scheme to autogas extended

Transport Malta, in conjunction with the Ministry for Transport and Infrastructure, is extending the scheme to incentivise vehicle owners to convert their vehicle's fuel system to Autogas.

This is another environment friendly budget measure aimed at reducing the amount of emissions generated by road traffic. Subject to various conditions, the grant amounts to €200, which will be given upon the conversion to Autogas of an M1 motor vehicle used for private purposes.

The scheme came into effect on 1 January and closes on 31 December, or earlier if the maximum of 750 claims is reached. Applications are processed on a first-come-first-served basis. Persons who converted their vehicle to Autogas in 2013 may still apply for the scheme.

Application forms for the scheme are available from the Driver and Vehicle Licensing Unit, Hornworks Ditch, Floriana or may be downloaded from www.transport.gov.mt.
